

MACHINING CENTER

OUR MACHINING CENTER

Micar Group is a manufacturer and integrator of solutions for industry based in Milan.

Micar Machining Center operates in location separate from the company's headquarters but deliveries are fast and on time.

OFFER

We specialize in the production of **metal parts for industry**. We produce precise components in a professional machine park.

Machining of details is carried out according to customer's guidelines and provided technical documentation from own or entrusted materials.

Materials that can be processed in the center:

- aluminum
- carbon steel
- stainless steel
- graphite
- bronze, brass, copper, cast iron
- extensive range of plastics

Production possibilities - machining, CNC lathe and CNC milling:

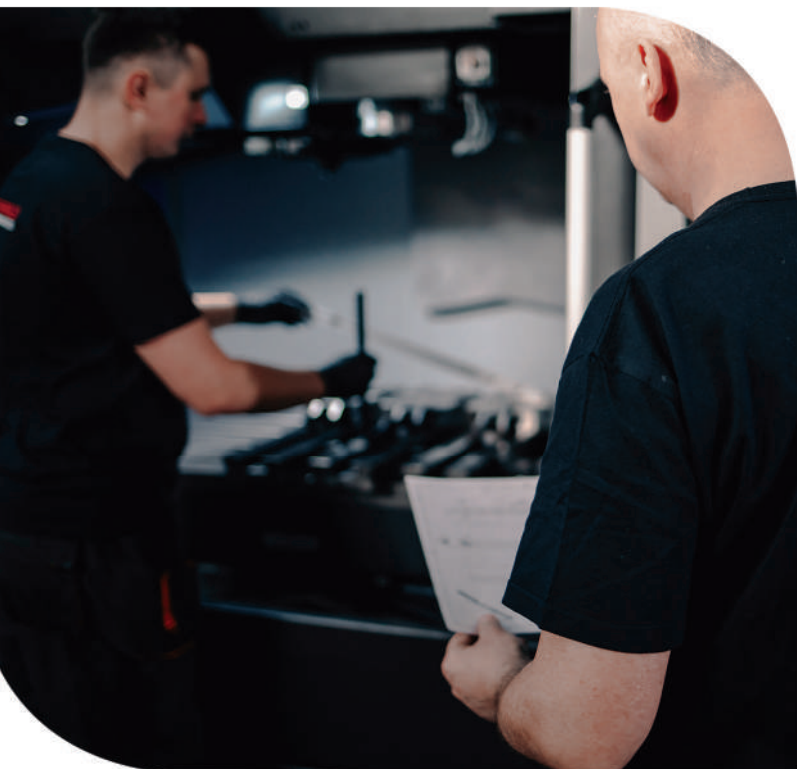

- production of details according to customer documentation
- production of metric, inch, internal and external threads
- making holes with a keyway
- making shafts, sleeves, discs, rings and rollers
- making holes for collets, bearings and mounting hubs
- turning diameter $\varnothing$ 400 mm
- maximum turning length in centers up to 1500 mm
- maximum milling length 2000 mm, width 500 mm, height 500 mm

MACHINES PARK

- **CNC milling machines** with 450 x 380 x 400 [mm] and 900 x 500 x 450 [mm] working surfaces
 - **manual milling machines** with a 1000 x 250 x 450 [mm] working surface
 - **spindle moulder** with an adjustable spindle angle
 - **manual lathes** with working surfaces Ø350 x 1500 [mm] (throughlet Ø89), and Ø250 x 1400 [mm] (throughlet Ø57)
 - **CNC lathes** with working surfaces Ø300 x 500 [mm] (throughlet Ø65), Ø300 x 1500 [mm] (throughlet Ø105), and Ø150 x 100 [mm] (throughlet Ø30)
 - **sliding table saws** – for cutting sheets and bars of a diameter up to 120 mm
 - **circular saws** – for cutting Ø250 mm or larger bars
-

TECHNICAL SUPPORT AND CONSULTING

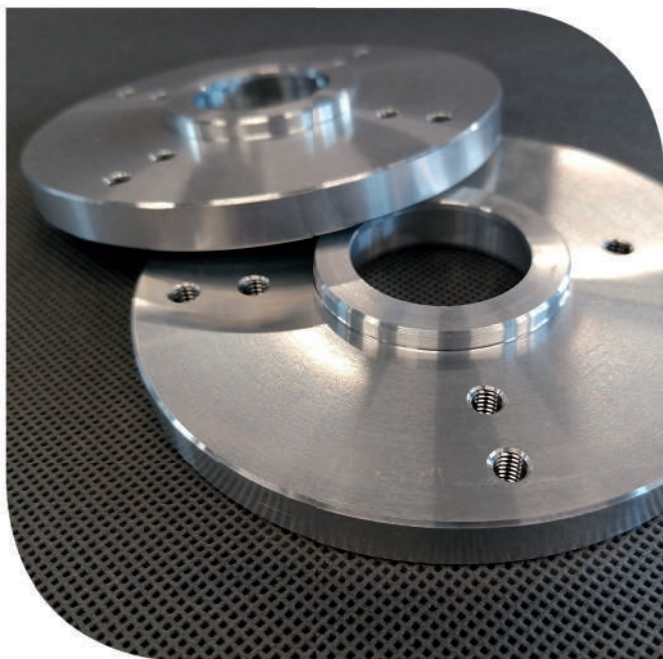

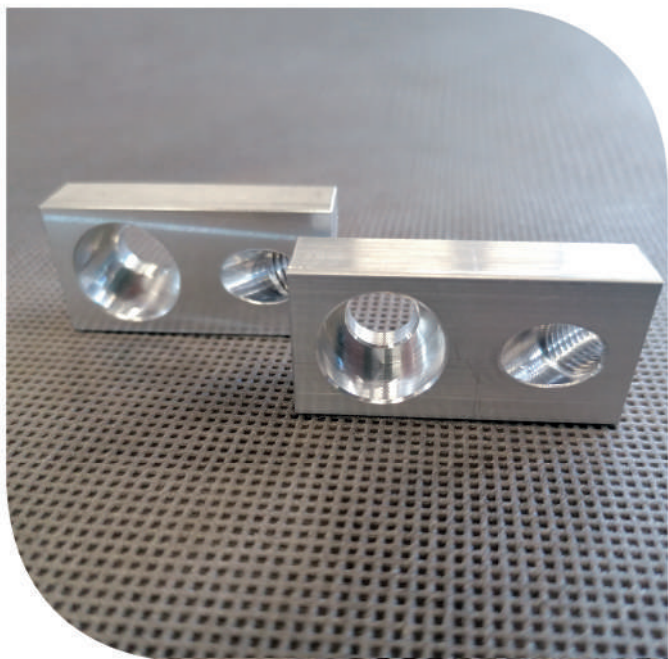

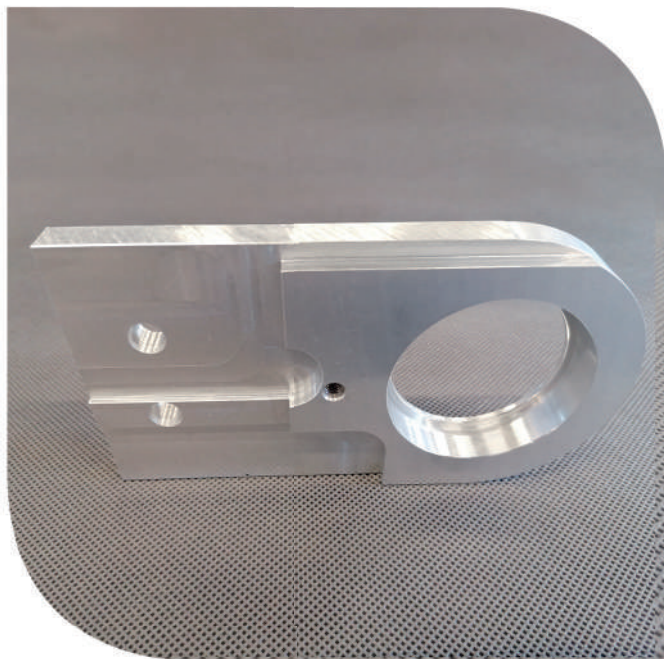

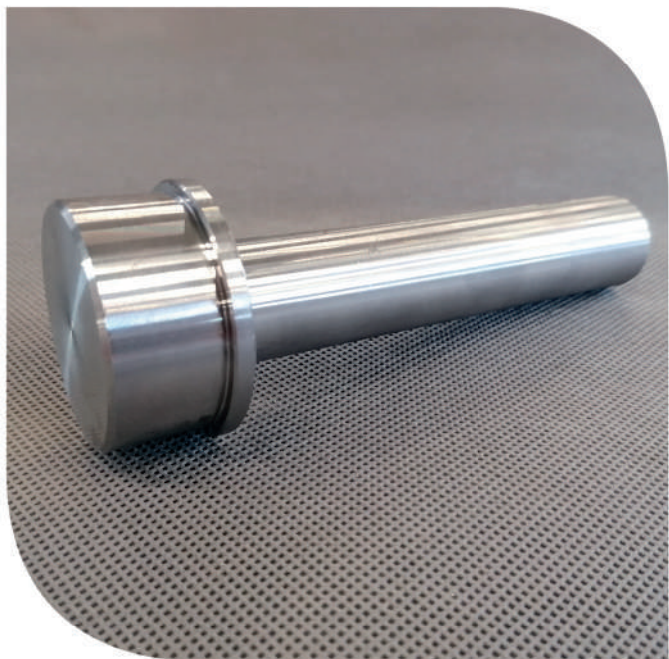

An experienced team of designers and technologists provides **support** in production of details.
